## BIOGRAPHY

Dr. Jerry Galloway has performed as a professional musician, drummer and vocalist for almost 50 years. With a background in classical music, he studied theory and composition for several years with **Manny Albam**, the renowned Jazz musician from New York City. In 1969, Jerry was performing up to 10 shows each week on pipe organ at the old Warner Brothers vaudevillian theater in Milwaukee, WI, - today known as the **Riverside/Pabst Blue Ribbon Theater**. He has performed on saxophone, concert piano and more.

As a drummer, playing hits since the mid-1960's, Jerry was a founding member of **The Steamrollers**, based in New Jersey. There he played 6 nights a week in the 1970's and also toured with the legendary Grand Ole Opry star, **Webb Pierce**. After the east coast, Jerry helped form the band **Stone Broke** playing Houston, Texas, for 13 years.

Throughout these years, Jerry maintained full-time work in school earning a Bachelor's Degree in Logic at the University of Houston. After law school, Dr. Galloway earned his Doctorate in Instructional Technology from the University of Houston followed by many years as a professor of education and coordinator of computer education at Indiana University NW.

With 30 years as a university professor, his research helped establish the early protocols of online education now commonplace on the Internet. He served on the National Board of Directors for the National Social Science Association and as an editor for the International Journal of Educational Psychology. He spent his latter professional years supervising doctoral students' research and completion of the dissertation process. While still writing and publishing, he is retired from academia.

He is a widely published author, public speaker, stage actor, and pilot. And, as a 5th degree Taekwondo Master, he operated his own martial arts academy for over 25 years. Master Galloway is a 5-time national medalist. As an astronomer, he operates his own observatory and served as the Astronomy Lecturer for Royal Caribbean Cruise Lines for over 15 years.

During the 1990's Jerry took his voice and drumming to **Ernie Givens & The White Lies Band** from Chicago to Indianapolis and southern Michigan. They won Nashville's OCT "Indie" award as the best Independent Country Band in the World in both 1999 and 2000. Jerry performed as Frank Sinatra with the **Chris Chandler Orchestra** from Savannah, Georgia. Over the past few years, Jerry directed and performed in his own musical and dance stage play, **"The Nostalgic Jukebox,"** recreating his characters of Frank Sinatra, Dean Martin and Tom Jones on stage in Orangeburg and Charleston, South Carolina.

Dr. Galloway is a member of **MENSA** and published his autobiography in 2009. For almost 50 years he performed with everything from 40's big bands, classic rock, country and oldies to swing and jazz. When not on stage drumming, Jerry can be found singing weekends at local restaurants, parties and special events with his solo show featuring the greatest in popular music from the past 50 years. He still performs around 150 shows per year with this show and also as a drummer with the premier central Colorado **"Party"** band: **25 SOUTH**.
